

She's So European

Kiss

She walked in like a lady, with a glass of pink champagne
I wouldn't look if you paid me 'cause to me she's still the same Well you wanna see her, wearin' her heart on
her sleeves
You'd never believe her, she's got a well planned look in her eyes She's so European, she's one of a kind, one of
a kind
She's so European, she's one of a kind, all in her mind
And she's so European, I found out today She still speaks with an accent from a week in San Tropez
She makes love on her brass bed 'cause her parents are still away Well you wanna see her, countin' the stars in
her eyes
You'd never believe her, she's got a well planned cover less smile She's so European, she's one of a kind, all in
her mind
She's so European, she's one of a kind, all in her mind
And she's so European, she told me today I wanna hold her tight all through the night, I must be dreamin'
I wanna take my time, she's so refined, is that her screamin'? I've seen looks in your eyes, you've seen through
her disguise, yeah She's so European
She's so European one of a kind, all in her mind
She's so European
(She's all in her mind)
She's so European
(Yeah)
She's so European
(Oh yeah)
She's so European
She's so European
She's so European
She's so European
