

# Entrails Ripped From a Virgins Cunt

## Cannibal Corpse

Alive alone now that they've gone dead but unburied  
I've seen it unfold, terrible scenes of agony  
Eyes in the darkness  
Echoing their madness The sights that have passed before them  
Watching as though it has never happened  
Now I only listen to what is not spoken Murder, hatred  
Anger, savage  
Killings I have caused  
More than can be counted  
Orgies of sadism  
And sexual perversion  
Virgin  
Tied to my mattress  
Legs spread wide  
Ruptured bowel, yanked  
From her insides  
Devirginized with my knife  
Internally bleeding  
Vagina, secreting  
Her blood-wet pussy  
I am eating  
On her guts I am feeding  
Mutilated with a machete  
I fucked her dead body  
The first and last  
Your life's only romance  
My knife's jammed in your ass  
As you die you orgasm Pass on to the dead  
Nerve trembling convulsions  
No longer looking human I never see them, but I know they're there  
Locked in my subconscious  
Obscene memories I thought I'd forgotten  
Haunting unrealities  
Tear at me  
Hold her arms  
Her mouth taped shut  
Screams unheard  
Out pour her guts Layers of flesh peeling away  
Languish in your own decay

Descriptions of my killings  
Bone chilling Terror, tear, her  
Virgin cunt Virgins are my victims  
Their tight interiors I explore  
Sharpened utensils of torture  
Now inserted inside of her  
Sex organs extracted for eating  
On her liver I am gnawing Forbidden lust for guts  
Ripped from her cunt  
Tears of blood cry down her thigh I ram my fist inside her hole  
From her crotch piss now flows  
Rectum filled with shit  
I fucked her emptied body  
Until she became stiff
