

# Only People

## John Lennon

Let's goOnly people know just how to talk to people

Only people know just how to change the world

Only people realize the power of people

Well, a million heads are better than one

So come on, get it onWell I know how we tried, the millions of tears that we cried

Now we are hipper we been through the trip

And we can't be denied with woman and man side by sideMake no mistake it's our future we're making

Bake the cake and eat it too

We don't want no pig brother sceneOnly people know just how to talk to people

Only people know just how to change the world

Only people realize the power of people

Well, a million heads are better than one

So come on, get it onWe'll it's long overdue, there ain't nothing better to do

Now we are hipper we been through the trip

We can fly right on through, there's nothing on earth we can't doFish or cut bait it's our future we're making

All together now pull the chain

We don't want no pig brother sceneOnly people know just how to talk to people

Only people know just how to change the world

Only people know just how to talk to people

Only people know just how to change the worldOnly people know just how to talk to people

Only people know just how to change the world

Only people know just how to talk to people

Only people know just how to change the world
