Holy Water

The Superjesus

Lately you know it's hard to settle down
The safety's compass turning back
And I'm following nowFollow me wherever I would run
Cause I'm going in after you
If it's only holywater
You take it upon me too
If it's only holywater
I'm making the best of everything I'll ever do
And it's nothing to youPatience let it fall in your hands
all its avenues a part
In where everything standsEverything is taken back again
Cause I'm going in after you
If it's only holywater
You take it upon me too
If it's only holywater
I'm making the best of everything I'll ever do
