

# SPY

## The Seatbelts

Slow motion, blinds are see through  
Let your mind go, imagine that I kiss you  
Turn off the lights and open up your eyes now  
You can take a glimpse into my soul for tonight  
Do you got the heat off girl? Yes, I do  
Can you turn up the temperature? You bet I could  
Colombian with a swagger, yes, I am  
Whatever it takes to make this thing work we gonna  
Whatever it takes to make this thing work we gonna  
There's a spy by my window, I know it's you  
You like to keep an eye on me  
I know you like to keep an eye on me  
There's a spy by my window, I know it's you  
Won't you like to keep an eye on me?  
I know you like to keep an eye on me  
Keep an eye on me, but if you want it got to let it be  
I know you dream about me and it turns me on to think about it  
This is the finest game, it ain't even got a name  
I just wanna see how far it takes us tonight  
Do you got the music on girl? Yes, I do  
Can you get a little closer? You bet I could  
Colombian with a swagger, yes, I am  
Whatever it takes to make this thing work we gonna  
Whatever it takes to make this thing work we gonna  
Whatever it takes to make this thing work we gonna  
There's a spy by my window, I know it's you  
  
You like to keep an eye on me  
I know you like to keep an eye on me  
There's a spy by my window, I know it's you  
Won't you like to keep an eye on me?  
I know you like to keep an eye on me  
Keep an eye on me, but if you want it got to let it be  
When the dog's away that's when the cat's play  
You'll be my girl, I'll be the spy  
Like the James Bond flick girl I'm ready to ride  
When the cat's away that's when the mouse play  
You'll be my girl, I'll be the spy  
Like the James Bond flick girl I'm ready to die, die, die

There's a spy by my window, I know it's you  
You like to keep an eye on me  
I know you like to keep an eye on me  
There's a spy by my window, I know it's you  
Won't you like to keep an eye on me?  
I know you like to keep an eye on me  
Keep an eye on me, but if you want it got to let it be  
Lipstick's on, stockings up  
Skirt's short, heels are high  
Take your time, buckle up  
Close your eyes and enjoy the ride  
Close your eyes and enjoy the ride  
Close your eyes  
Close your eyes and enjoy the ride
