

# I Have Decided To Join The Airforce

## Bee Gees

Mother, I'm going to join the Air Force today  
I don't care what the neighbors may say  
But I'm going to join the Air Force today  
Mother, I don't care what my father might think  
Perhaps it's going to drive him to drink  
But I don't care what my father might think  
Don't ask me why, it's my mind and it's right  
Don't ask me why, it's my mind  
It's better, it's better than being alone  
Alone on the ground, now I find  
Mother, I've got to join the Air Force, you see  
I've seen my friends and they all agree  
That's it's better than joining the Army or going to sea  
Mother, I've got to join the Air Force, you see  
I've seen my friends and they all agree  
That's it's better then joining the Army or going to sea  
Mother  
Mother  
Mother
