

# Blueprints

**Ben Everson**

Blueprints- by Ben Everson

If the life I live when the way I planned  
If the blueprints that I drafted came to be  
Thereâ€™s no shadow of a doubt  
That no one else about  
Would recognized that I was even me

Iâ€™m sure Dear Lord, you know Iâ€™m not complaining  
Iâ€™d never claim to know whatâ€™s best for me  
Iâ€™m simply taking time to re-acknowledge  
That even when our blueprints disagree

Iâ€™ll thank you for the things that made me different  
Things that no one else could understand  
The things I thought just held me back from what I planned to be  
But the very things you used to speak to me  
Lord, the things that made you mean the world to me

Though the life I live isnâ€™t what I planned  
And the blueprints that I just drafted just canâ€™t be  
Thereâ€™s no shadow of a doubt  
You know what youâ€™re about  
You shape the heed and dreams inside of me

Iâ€™m sure Dear Lord, you know Iâ€™m not complaining  
Iâ€™d never claim to know whatâ€™s best for me  
Iâ€™m simply taking time to re-acknowledge  
That even when our blueprints disagree

Iâ€™ll thank you for the things that made me different  
Things that no one else could understand  
The things I thought just held me back from what I planned to be  
But the very things you used to speak to me  
Lord, the things that made you mean the world to me

The things I thought just held me back from what I planned to be  
But the very things you used to speak to me  
Lord, the things that made you mean the world to me
