

# The Cabbage

## Teenage Fanclub

Goodbye girl, where did you go?  
Woke up this morning and I didn't know  
We were together but now we're not  
Asked you for nothing that's what I got It's okay  
Even better this way  
That's what they'll tell you  
That's what they'll say Are we together? I guess we're not  
Do you still want me? That's what I thought  
Look in the mirror and I'm a mess  
Open the window forget about the rest It's okay  
Even better this way  
That's what they'll tell you  
That's what they'll say
