

Spaceboy

The Jude

Summer has gone
A new day has come
Dead leaves have fallen
I leave at dawn I'll fly away
Before the world awakes
Time will lose its place
Among the stars in space Oh, take me home
Oh, take me home
Oh, take me home Spaceboy you rule
This kingdom of fools
The dreamer that you are
Will fly among the stars High above the Earth
A spiritual rebirth
Through heavens ascend
I've found my Imogen Oh, take me home
Oh, take me home
Oh, take me home New worlds await
Deep in outer space
Beyond the Milky Way With Imogen I'll stay Summers breeze
Touch the tranquil night
High above In evanescent light
Your dreams shine bright
Reflections on the lake
And in my heart
You'll never fade away
