

Bad Luck Blues

Magic Sam

I've been down so long, but I'm on my way up again
I've been down so long, but I'm on my way up again
When I reach the top this time baby
Whoa you won't be my friend I give you all my money
a cadillac and everything
I give you all of my money
a cadillac and everything
But you've gone and left me
Whoa for another man Now I'm walkin' from town to town
I don't have no food to eat
I've been workin' on the road
with no shoes on my feet I've been down so long
But I'm on my way up again
When I reach the top this time baby
you gonna wanna be my friend You know I've been walkin' from town to town
Don't have no food to eat
I've been workin' on the road
with no shoes on my feet I've been down so long
but I'm on my way up again
When I reach the top this time baby
You gonna wanna be my friend Whoa Baby
Whoa oh
Oh oh
You gonna wanna be my friend
You gonna wanna be my friend
You gonna wanna be my friend
You gonna wanna be my friend
You gonna wanna be my friend
