Climbing

Mocombo

Artist: lionel richie
Album: unknown
Climbing to the top
I'll tell you anything you want
We're on this planetary journey to a place beyond
The independent minds will tell you
The colors you should wear
But know the game of life
Is just a game of solitaire
Climbing to the top
The ones you love will come and go
When you lose you sacrifice
Chasing the rainbow
And if you should climb this magic ladder
The story will unfold
Just remember when you reach the top
All that glitters is not gold
Time, just take the time
What you think is what you find
You know the answers

You're no ordinary dancer
Face the changes you go through
Have the faith in what you do
You know the answers
You're no ordinary dancer
Climbing to the top
I'll tell you anything you want
Were on this planetary journey
To a place beyond
You can climb the highest mountain
Swim the deepest seas
The only thing that matters
Is you will find your destiny
You know the answers
You're no ordinary dancer
Climbing to the top
I'll tell you anything you want
You're on an imaginary journey

To a place beyond
You can climb the highest mountain
Swim the deepest seas
The only thing that matters
Is you will find your destiny
