Let go of all the things that's holding you down  
So just believe there ain't nothing getting in your way  
Don?t get caught up on the little things that people say  
Just let it roll off your back and go about your day  
Now all my people come and gather around, yeah  
Everybody  
You know you wanna  
Don?t stop  
Let it roll, let it roll, let it roll  
You know you wanna  
Don?t stop  
Let it roll, let it roll, let it roll  
Hey everybody we just came to party like  
Work your way down, down to the floor  
Keep acting like you can?t get enough

To rock the mic without compromise
