

This Time

Mest

Is our time gone forever?
Nothing else seems to matter
Sitting to watch the sun die
GoodbyeFeeling uninspired
Left alone and tired
Waking up to nothing
I need somethingI can't say goodbye forever
But I'll say goodbye for now
This time, like last time
It's over, I'm leaving this behindThe walls are closing in now
I'm walking through it somehow
Waking up with nothingGive me something
I've lost all sense of meaning
Staring at the ceiling
No longer believing everythingI can't say goodbye forever
But I'll say goodbye for now
This time, like last time
It's over, I'm leaving this behindI can't stand another day without you
But I have to walk away
Infatuation's got me going crazy
Desperation makes me stay
I'm leaving this behindThis time, like last time
It's over, I'm leaving this behindI've taken all that I can take
So I'm leaving this behind
I'm leaving this behind
