

# All About You

Nate Sallie

I talk about the day  
You walked into my life and took the shame away  
I talk about your love  
It's more than I could dream of I talk about your face  
And when I get to see it for eternity  
I talk about up above  
The heavens and I wonder what they're made of  
It's easy to figure out what my life is all about It's all about you, it's not about me  
Wherever I go I want people to see  
Your light is shining  
Like the sun in everything that I do It's all about you, it's all about you  
It's all about you, it's all about you  
You I talk about your hands  
And how they lift me up when I get under them  
I talk about your eyes  
And how they always see me even through the night I talk about your voice  
And how I hear you calling even through the noise  
I talk about your arms  
And how they wrap me up and keep me safe from harm  
It's easy to figure out what my life is all about It's all about you, it's not about me  
Wherever I go I want people to see  
Your light is shining  
Like the sun in everything that I do It's all about you, it's all about you  
It's all about you, it's all about you  
You There's no one like you  
There's no one like you It's all about you, it's not about me  
(As if you should do things my way)  
It's all about you it's not about me  
(As if you should do things my way)  
It's all about you it's not about me  
No, no, no, no, no, no, no  
Yeah , yeah It's all about you, it's not about me  
Wherever I go I want people to see  
Your light is shining, your light is shining  
Like the sun in everything that I do It's all about you, it's all about you  
It's all about you, it's all about you  
You
