

# Beautiful

## Kutless

The weather outside tells me that snow's on it's way  
As trees turn to white my troubles inside are losing their colors the same  
It feels like forever since I remember the power of your love for me  
It's beautiful a child, a savior, a king  
With love like the world's never seen  
It's beautiful the bright shining star in the east  
As angels sing "Gloria, unto us a savior is born"  
It's beautiful  
Lights and the trees remind me of the reason you came  
Light of the world on Calvary  
The son of man came here to save  
It's beautiful a child, a savior, a king  
With love like the world's never seen  
It's beautiful the bright shining star in the east  
As angels sing "Gloria, unto us a savior is born"  
It's beautiful  
All is made white and God has redeemed us  
Together we'll sing of his glory  
It's beautiful a child, a savior, king  
With love like the world's never seen  
It's beautiful the bright shining star in the east  
As angels sing  
It's beautiful the child, the savior, the king  
With love like the world's never seen  
It's beautiful the bright shining star in the east  
As angels sing "Gloria, unto us a savior is born"  
It's beautiful
