

# Some Kinda Woman

## Traffic

Heats the message that you send  
One look at you, burnin' up inside  
You know that I'd give up anything  
I can't get enough when you get next to me  
Oh you, some kinda woman  
You yeah, some kinda woman  
You cut a notch every time a heart is breakin'  
One time and then you  
Oh, never let 'em off, once you've fixed your sights  
Oh, I want you, I want to tie you to me  
Oh, don't hesitate  
You got the touch to make me free  
Oh you, some kinda woman  
You, some kinda woman  
I'm like a kid standin' outside your door  
You make me feel like never before  
I feel the heat risin' up in my soul  
I'm burnin' out of control  
Oh, break down this heat  
'Cause what you're doin' just makes me weak  
The way you stand there in your clothes  
Givin' me a look like Edward G  
And then you start to shake the place  
And then you lock on tight to the groove  
Oh, I want to get it on  
Lookin' for the chance to make a move  
Oh you, some kinda woman  
You, some kinda woman  
I'm like a kid standin' outside your door  
You make me feel like never before  
I feel the heat risin' up in my soul  
I'm burnin' out of control  
You, some kinda woman  
You yeah, some kinda woman  
Some kinda woman, yeah  
Oh you, some kinda woman  
You, some kinda woman  
Look into my heart for what you want  
Sayin' that you will and then you won't

Look into my heart for what you want  
Sayin' that you do and then you don't

You, some kinda woman  
Oh you, some kinda woman  
Oh you, some kinda woman  
You hey, some kinda woman  
Some kinda, some kinda woman  
You some kinda woman  
Kinda, some kinda woman  
You some kinda woman  
You, you some kinda woman  
You, you some kinda woman  
Some kinda woman  
You some kinda woman
