

Best Day of My Life

Jesse McCartney

I woke up around a half past 10
Can't believe that I'm late again
I put down about a quart of caffeine
To start my pulse and then I grab my jeans off the floor then I hit the door
Just the same old same
It goes to show you never know
When everything's about to change Just another day, started out like any other
Just another girl, who took my breath away
Then she turned around, she took me down and
Just another day then I had the best day of my life I can't say exactly what it was
She's not the usual type
She wore a cowboy hat with her red Prada boots
And a Gwen Stefani smile Then she pulled out a pen and surprised me
When she wrote her number on my hand
Then she was gone but from now on
I'm gonna be a different man, 'cause Just another day, started out like any other
Just another girl, who took my breath away
Then she turned around, she took me down and
Just another day then I had the best day of my life I guess it goes to show
You never really know
When everything's about to change Just another day, started out like any other
Just another girl, who took my breath away
Then she turned around, she took me down
And just another day then I had the best day of my life
The best day of my life, the best day of my life
The best day of my life
