

Cat Turned Blue

Rusted Root

What is that you said
Gotta whistle in the wind yea go down go down go down
Fear for me and I will fear for you, fear, fear
Fear whistles in the wind as I go down
Fear whistles in the wind as I blow down When the cat turned blue When the cat turned blue When the cat turned
blue When the cat turned blue When the cat turned blue When the cat turned blue When
the cat turned blue When the cat turned blue What is that you said
You gotta whistle in the wind and again yea What is that you said
You gotta whistle in the wind and again yea Fear for me and I will fear for you Fear for me and I will fear for
you Fear whistles in the wind as I go down
Fear whistles in the wind as I blow down There must be some kinda way out of here
Said the joker to the thief
There's too much confusion
I can't get no relief When the cat turned blue When the cat turned blue When the cat turned blue When the cat
turned blue What is that you said
Gotta whistle in the wind yea go down go down go down
Fear for me and I will fear for you, fear, fear
Fear whistles in the wind as I go down
Fear whistles in the wind as I blow down What is that you said
You gotta whistle in the wind and again yea
