

The Arms of Sorrow

Killswitch Engage

Imprisoned inside this mind
Hiding behind the empty smiles
So simple
(Relinquish)
Isn't much made
Crawling back into the darkRunning, always running
Into the distance
Stop me
Before I bleed againThe echoes of my voice
Follow me down
The shadows I cast
Follow me downDeeper I'm falling
Into the arms of sorrow
Blindly descending
Into the arms of sorrowThere must be serenityThe echoes of my voice
Follow me down
The shadows I cast
Follow me downDeeper I'm falling
Into the arms of sorrow
Blindly descending
Into the arms of sorrowThe demons of my own design
This horror must not remainDeeper I'm falling
Into the arms of sorrow
Blindly descending
Into the arms of sorrowThere must be serenity
There must be deliverance
Deeper I'm falling
Blindly descending
Deeper I'm falling
