

The 11th Hour

Aesthetic Perfection

I search the world to find the girl

I need, I need

I know she's also searching out

For me, for me

I keep on going way past the 11th hour

I keep on going way past the 11th hour

To find you

I keep on going way past the 11th hour

I keep on going way past the 11th hour

To find you

I search the world to find the girl

I need, I need

I know she's also searching out

For me, for me

I keep on going way past the 11th hour

I keep on going way past the 11th hour

To find you

I keep on going way past the 11th hour

I keep on going way past the 11th hour

To find you

I will...

I keep on going way past the 11th hour

I keep on going way past the 11th hour

To find you

I keep on going way past the 11th hour

I keep on going way past the 11th hour

To find you

I will...
