# Suffocating Words

## Scars Of Tomorrow

Another victim of life
Within you it hides
And when I looked you in the eyes
I froze insideAnd when I heard the news, I ran
I froze inside
But now forever you will live in me
Your face imprinted in my, my headAnd now you're all alone
Your alone, your alone
Yet you will never know
What you could have doneAnd now you're all alone
Your alone, your alone
Yet you will never know
What you could have doneThe dead cold stare
Left whimpered with passion
There is no fear in your eyes
Left whimpered with passionAnd you mean
More than words can show
And you mean
More than words can showAnd when I heard the news I ran
I froze inside
But now forever you will live in me
Your face imprinted in my, my headAnd now you're all alone
Your alone, alone
Yet you will never know
What you could have doneYou're all alone
You're all alone
You're all alone
You're all aloneYou mean more than words can show
(Suffocating words)
(Suffocating words)You mean more than words can show
(Suffocating words)
Can show
(Suffocating words)You're all alone
You're all alone
You're all alone
