

Symbol Song

Dredg

He said: patience is the key to
For a change to ensue
Warm the arctic cold
And drop down
To the ground
Wait for the sound
Of the coldTake these words
You'll have your day
Live it as your lastHe said: love will build your heart and
Bring you up from the sand
Now i wish to go
Accept you bravery
For it is all we are
It's all we areTake these words
Beyond your way
You will find your
Now...He said: faith, distrust, and reason
With this you'll be kneeling
Before the world
And drop down
To the ground
It's all we are
It's all we areTake these words
Be on your way
You will find your
Now....
