

Do It, Fluid

The Blackbyrds

I likes to party
I likes to party
I likes to party
I likes to party When you wanna party
And party, party hearty
Hold up, hold up When you're getting down
No sense in messing around
Hold up, hold up [CHORUS]
Talking 'bout do it, fluid
Talking 'bout do it, fluid
Talking 'bout do it, fluid
Talking 'bout do it, fluid
When you wants to move
And trying to stroke a groove
Hold up, hold up And when you feel a ringle
And your body wants to intermingle
Hold up, hold up [Repeat CHORUS] If you wants to get crazy
Slow down and lazy
Hold up, hold up If you want success
Then do the thing that's best
Hold up, hold up [Repeat CHORUS] If you're making shy
And like to be hip and fly
Hold up, hold up
Drugs are for fools
Love will keep you cool
Hold up, hold up [Repeat CHORUS 2x] If you're making shy
And like to be hip and fly
Hold up, hold up Drugs are for fools
Love will keep you cool
Hold up, hold up [Repeat CHORUS 2x to fade]
