One for the Ride

Waxwing

So it's one for the ride this time
Every day just bring her back alive
There are men who would spend their whole lives,
Working real hard, I'll work harder than that
I see things clearer through your eyes, Everything's Fine
I've been with you through your whole life you've been here for mine
Some things I've known since the day I was born
Honey your just one of them
One for the ride this time
A kiss to keep me inside this mind
Never forget this my son
Right of passage is not an easy one
I see things clearer through your eyes, Finally I've arrived
I've been with you through your whole life you've been here for mine
Days the sunshine made you smile, I felt it keep me warm inside
The day you learned it so did I, everything that breathes will die.
Some Days I spent aching for this,
Honey I missed so much of your time, but now your mine.
One for the ride this time
Every day just bring her back alive
Never forget this my son
Right of passage is not an easy one
I see things clearer through your eyes, Everything's Fine
I've been with you through your whole life you've been here for mine
Sometimes broken Two by Fours,
and Heaps of shingles bring you more
Than everything you were wishing for,
before you knew what was in store
Something's I've known since the day I was born
Honey your just one of them
