Bodies

Savoir Adore

I saw her innocent eyes,
her spirit passed me by
our time, alive
She has been waiting for you
We thought that you would come through
Ohh young boy, just what do you plan to do?It's a day for us to remember
follow me and we'll burn together
ohh you can take her body
ohh you can have it all (you can have it all)
ohh make it through the night
her body will riseand in the morning we'll find
we are of the same kind
our lives in line
oh what a foolish disguise
believing all of our lies
he'll learn, he'll learn in timeIt's a day for us to remember
follow me and we'll burn together
ohh you can take her body
ohh you can have it all (you can have it all)
ohh make it through the night
her body will riseAll of our lies
In time
Feel right
All of our lies
In time
Feel rightIt's a night for us to remember
take my hand and we'll burn together(you can have it all)
ohh make it through the night
her body will rise
ohh you can take her body
ohh you can have it all (you can have it all)
ohh back where it belongs
her body is gone
