

Jungle Fever

Stevie Wonder

I've got jungle fever, she's got jungle fever
We've got jungle fever, we're in love
She's gone black-boy crazy, I've gone white-girl hazy
Ain't no thinking maybe, we're in love
She's got jungle fever, I've got jungle fever
We've got jungle fever, we're in love
I've gone white-girl crazy, she's gone black-boy hazy
We're each other's baby, we're in love I've got jungle fever, she's got jungle fever
We've got jungle fever, we're in love
She's gone black-boy crazy, I've gone white-girl hazy
Ain't no thinking maybe, we're in love She can't love me, I can't love her
Cause they say we're the wrong color
Staring, gloating, laughing, looking
Like we've done something wrong
Because we show love strong, get real, come on
Calling us names too bad to mention
But we pay them no attention
For color blind are inner feelings
If we feel happiness
And know our love's the best, forget their mess I've got jungle fever, she's got jungle fever
We've got jungle fever, we're in love
She's gone black-boy crazy, I've gone white-girl hazy
Ain't no thinking maybe, we're in love
She's got jungle fever, I've got jungle fever
We've got jungle fever, we're in love
I've gone white-girl crazy, she's gone black-boy hazy
We're each other's baby, we're in love Everyone's created equal
Hell with all you ignorant people
Trying to stereo type us
You really ought to quit
Cause you don't know jack, you make us sick
Get off my jock, you're trying to ride me
Because I got my girl beside me
You'll only make yourself look stupid
I love you're trying to dis
Cause we've got happiness, I bet you're pissed I've got jungle fever, she's got jungle fever
We've got jungle fever, we're in love
She's gone black-boy crazy, I've gone white-girl hazy
Ain't no thinking maybe, we're in love

She's got jungle fever, I've got jungle fever
We've got jungle fever, we're in love
I've gone white-girl crazy, she's gone black-boy hazy
We're each other's baby, we're in love I've got jungle fever, she's got jungle fever
We've got jungle fever, we're in love
She's gone black-boy crazy, I've gone white-girl hazy
Ain't no thinking maybe, we're in love
She's got jungle fever, I've got jungle fever
We've got jungle fever, we're in love
I've gone white-girl crazy, she's gone black-boy hazy
We're each other's baby, we're in love
