

# Calling Out

## Distant Sun

Calling my friends, calling out  
All at the end and falling down now  
Fall back again I've no doubt  
Try to pretend there's no way out now  
I'm calling my friends but times are changing and tomorrow  
you'll remember what I'm saying  
Even if I'm on my own calling outAll I can see is clouded out  
All I can be I've found it out now  
Oh life back then just hung about  
and time well spent is handed down nowI'm calling my friends but times are changing and tomorrow  
you'll remember what I'm saying  
Even if I'm on my own calling outWhat can I do about the way the futures fading?  
How can I change the laws of life?  
With all the bad things I never get deflated  
I remember what I'm saying  
Even if I'm on my own calling out
