

# Mothers Daughter

## Tunng

Young girl stuck to the water  
Time will tell if you're your mother's daughter  
    Stone boat adrift on the ocean  
    Rows for the shore with the devil's devotion  
        Red girl picture was broken  
        Stand in the glass the angel's in motion  
        White swan watch with a wry smile  
    Raise up your wings for the wind and the last mile  
        Young girl stuck to the water  
    Time will tell if you're your mother's daughter
