

# The Beauty

## Shanti

patience comes to those of us who wait  
can we escape this life that we create  
we look outside to find happiness  
can you tell me what i missed.  
in time it'll come together  
and in time the pieces fit together  
in time we'll see all  
the beauty yeah, all the beauty  
it looks like i've got a ways to go  
why does it have to happen so slow  
i've heard the truth  
so now i know i can't go back  
to living in the shadows  
chorus you tell me that i'm the same as you  
and i can shine just like the rest  
do the flame's been lit  
and now it's time now it's time to shine  
chorus (x3)
