

I Did It for You

Westlife

Life without takin' chances
Is no kind of life at all
You've gotta stand up for something
Even if you might fall Gotta take that road
Wherever it might go
No matter where
No matter what
I want you to know
I want you to know I tried to do my best
To do the best I could
And I had to give my all
It's what I had to do
And I, do it all again
And that's the honest truth
I, I did it for you Maybe I was crazy
I guess I was sometimes
And maybe it's hard to change things
But I had to know I tried Everyday you've got to live
For what you believe
Please understand
I had no choice
It's what had to be
It's what had to be I tried to do my best
To do the best I could
And I had to give my all
It's what I had to do
And I, do it all again
And that's the honest truth
I, I did it for you Oh, and I had no choice, no
It was somethin' that I believed
A dream that was drivin' me
A fire inside of me I tried to do my best
To do the best I could
And I had to give my all
It's what I had to do
And I, do it all again
And that's the honest truth
I, I did it for you Oh, I, I did it for you
I did it for you
