

# The Only Way

## Shermanology

Calm down now baby  
The end of the journey's in sight  
    You've travelled so far love  
Now all of the stars are aligned  
    Say goodbye (I don't want to)  
Don't you fight (I don't want to)  
Leaving your life's no easy ride  
    All the grief you gave  
    All the love you made  
    All your yesterdays  
    Everything you were  
    Will fade  
    This is the only way

    All the things you thought  
        you came here for  
    Everything you thought  
        you knew for sure  
        No meandering  
    No more wondering  
        Everything is true  
All the things you thought you had to say  
    Everyone you left along the way  
        So you gather how  
Nothing matters now that your time is through  
    This is the only way
