Hairspray Heart

Black Moth Super Rainbow

I'd love to be feeling nothing
I'd love to see you feeling nothingI can hypnotize you, I can hypnotize you
I can hypnotize you, I can hypnotize you
I can come figure you outI can hypnotize you, I can hypnotize you
I can hypnotize you, I can hypnotize you
I can come figure you outTreat me like a queen, always sticky never fall apart
Swing the tambourine to the beat of my heart
Suckin all the poison from a snakebite like a gummy drop
I'm just like a person with a hairspray heartFace like a lemon, so juicy, confuse me
Out after midnight, you're crushin, I'm blushinLike a fuckin diamond, Like a fuckin diamond,
Like a fuckin diamond, Like a fuckin diamond,
Falling from my fuckin eyeLike a fuckin diamond, Like a fuckin diamond,
Like a fuckin diamond, Like a fuckin diamond,
Falling from my fuckin eyeTreat me like a queen, always sticky never fall apart
Swing the tambourine to the beat of my heart
Suckin all the poison from a snakebite like a gummy drop
I'm just like a person with a hairspray heart
