

# Blind (Live at Angkor Wat)

## Placebo

If I could tear you from the ceiling  
And guarantee source divine  
Rid you of possessions fleeting  
Remain your funny valentine Don't go and leave me  
And please don't drive me blind  
Don't go and leave me  
And please drive me blind If I could tear you from the ceiling  
I know the best have tried  
I'd fill your every breath with meaning  
And find the place we both could hide Don't go and leave me  
And please don't drive me blind  
Don't go and leave me  
And please drive me blind You don't believe me  
But you do this every time  
Please don't drive me blind  
Please don't drive me blind I know we're broken  
I know we're broken  
I know we're broken If I could tear you from the ceiling  
I'd freeze us both in time  
And find a brand new way of seeing  
Your eyes forever glued to mine. Don't go and leave me  
And please don't drive me blind  
Don't go and leave me  
And please drive me blind  
Please don't drive me blind [Repeats] I know I broke it  
I know I broke it  
I know I broke it
