Advisory - the following lyrics contain explicit language:

So one thing led to another  
You were calling her a lover  
    Her brothers her brother  
Yeah if you want me to do it, I  
    guess that I'll do it, but  
    I'm telling you  
One wrong move and yeah we're throughChorus x 2  
    Hey there sister wife  
    Get the hell out it's my night  
    You don't know the way to his heart  
    Like I doDamn man kick out the likeness  
    The view is the prophet  
    I don't think you got this  
    Yeah holy as our father  
    I'd rather not bother, I  
        and I'm telling you  
One wrong move and we're throughChorus x 2  
    Hey there sister wife  
    Get the hell out it's my night  
    You don't know the way to his heart  
    Like I doI'm stuck with two  
    I'm stuck with you  
    I'm stuck with two  
    I'm stuck withChorus x 2  
    Hey there sister wife  
    Get the hell out it's my night  
    You don't know the way to his heart  
        Like I do
