

# Mietzi's Song

## Beatsteaks

you showed me colours i'd never seen  
there was so much we used to share  
you took me places that i'd never been  
i close my eyes again and think of you  
i hear your voice with every passing day  
i see my sister's laughing face  
i think about the things you used to say  
i close my eyes again and think of you  
i see myself in you  
in all those little things you do  
took you in bed at night  
knowin' that everything's alright  
time slips away so fast  
sunny skies get overcast  
i know i can't be there beside you  
i can't be there to guide you  
i can't be there to hold you now
