The Buzz Kill (Prod. Reanimator)

Sage Francis

(Recorded Voice)
You are listening to the heartbeat of the SageSage posses the newest and most revolutionary advance in split second presentation
As well as split second calculation
To protect the future of America
The defense techniques of tomorrow had to be discovered now
But Sage needed more than this
New concepts, new tools, new weapons
By analyzing the past, Sage can project into the future(Sage Francis)
I used to think that rappers had it figured outBrass Monkey, St. Ides, Old English, and Guiness Stout
Once a man twice a boy with a choice of vice or voice of spite
Not enough poisons to pick to enjoy this life
Now I thought suicide was a suburban mythI couldn't see my own hands being the ones I'm murdered with
That is until I travelled this world a bit
I understand now if I lose my nerve I'll get the girl to do it!She heard the music but preferred the person, she's worth it
The only one I left behind the curtain to work with
Pushin' buttons and playin' with levers
We'll stay together as long as I'm honest in my songs
(Radio) Suckers never play this
Scared shitless of dismissing clear channel playlists
Poorly developed, yet highly advanced
The black music intertwined with the white man's line dance(Recorded Voice)
Supersonic, super destructive, seemingly unresistable
On the job, around the clock, with 24 hour a day reliabilityConstantly monitoring, pulse-taking, controlling
Into a continuous flow of interpretation, which could be understood at a glance(Sage Francis)
It's not only a time I'm kept
Busy with shivers and cold shakes
Sitting on snow banks
Waiting to be delivered some soulmatesOr wait
Lift and tuck my fate for several levelsFill my body till they send me an empty face with the head of devils
My breath resembles the smell of flowers
Yanked from life, placed in a vase
Sits and wilts and watch 'em dies in the name of grave mistakes
That we all make
Believe that we're getting by treating ourselves wrong
Throw me a reindeer John letter party
And ill be there with bells on
Hell spawn

So if he calls the city hall
They still got the gall
To blame the victory on biggie smalls
From strip mallsTo strip clubs
They slip drugs
Into the drinks that kids love
Tell us to drink up and get buzzed
This is the buzz kill jump into the saddle
Emerge from the dust kicked up in the uphill battle
With my guns drawn and sword out
Pointed towards the couthouse
I sort out words from my war torn mouth
I disassociate the actions with their meaningsSongs from "ends justify their means" mentality
Plus I'm bleeding
Give me a bandaid a band that can play
A fanbase with hearing aids and a voice like a hand grenade
I pull the wool over their vision
Pull the pin and push it in 'em
Using women as a pin cusion
A super villian
With some war paint and jokes done in poor taste
We'll see who laughs last all the way to foreign banks(Recorded Voice)
Ready to take over in a matter of seconds
to protect the future of America
Sage also has protection too
(Come on come on, feel it feel it)
The protection which comes with the possesion weapons of retaliation
But is this protection enough?(Sage Francis)
(I was) I was B-boyin' in my former bodySinging all the songs at parties
Now I'm like don't let nobody
Through the door in the hotel lobby
I'd wear Armani if they endorse me
So people who are poor can rob me
Then forcefully sex me up
Color me confused when they paint issues black and whiteResuscitate their grey matter right back to life
It's my destiny she wants me she beckons
She left me for dead but death didnt want no sloppy seconds
I'm certified freshOur freedom kissed the French for their political dissent
Like *mwah* I do it with tongue this time
And take that bovine blood out your wine
And take that statue back to the lab it was created at
Your huddled masses yearning to breath free
Take 'em back!
Your homeless tempest-tossed to me
Take 'em back!

The U-S-A has cracked(Recorded Voice)
And as long as we're on guard
As long as we're ready to look ahead
To move ahead
The future of America is secure
