

# What

## Broncho

Don't you look up, cause you're in a little high up  
If you got any money, you gotta get it on you, on you  
Just to get you stopped, to know how you've been loved  
They care on you, they care on you, you  
On hell wheels to heaven over  
What, What, What  
This' what feels rough, only to dry up  
Look fits you, gonna get it on you, on you  
You're the highest of, when you're catching any dinner  
Look fits you, gonna get it on you, on you  
On hell wheels to heaven over  
What, what, what  
I can't hold on, hold on  
I couldn't get it on  
I could stop, you on  
I couldn't get it on But it's different times, it's up to you  
A vision to think, if you want to  
You got first, I got home, you got robbed  
To when you'll come, come  
I'm gonna put you high, high up  
Hey girl, let me get it, get it on you, on you, on you  
That ain't no bust, ??? high up  
We get it on, we get it on you, on you, on you  
I can't hold on, hold on  
I couldn't get it on  
I could stop, you on  
I couldn't get it on  
A little pissed so may not remember  
What, what
