

# Mad Love

Robi Draco Rosa

And though I try to reach you  
And time is closing in on me  
Most of us carry on as if nothing ever matters  
But I ask you my love  
Will you hold on to me forever But when you're loving me I am fine  
So love me, just one more time  
'Cause when I say I love you  
That's forever Do you remember when  
Sunrise meant that we should close our eyes  
And words were just obstacles between  
Our hellos and our goodbyes And I was your savior  
And you were my queen  
And love was the answer  
To just about everything When you're loving me I am fine  
So love me, just one more time  
'Cause when I say I love you  
That's forever, yeah But can you take me, take me  
From this hollow place  
Can you hold me, hold me  
And take away this pain? I'll always remember the park  
Where you always remind me of our possibilities  
And maybe you and me  
Will refall and retruce to find the way And when you love me am fine  
So love me just one more time  
'Cause when I say I love you  
That's forever And I am trying to reach you  
Do you remember the touch like old friends?  
And I smile at you and we both start laughing Now I am a man of fortune  
I am a man that's free  
Life without you is true poverty  
I am a man of promise my faith aside  
And see myself still alive When you loving me am fine  
So love me, just one more time  
'Cause when I say I love you  
That's forever And I try to reach you  
When you loving me am fine  
So love me, just one more time  
'Cause when I say I love you  
That's forever Yeah, don't you remember the first time

When I smiled at you and we both start laughing  
There I said am a man of fortune  
I am a man that is free  
That life without you keeps hunting me
