

I Wanna Destroy You

Uncle Tupelo

I wanna destroy you
I wanna destroy you
I wanna destroy you
I wanna destroy you I feel it comin' on again
Just like it did before
They feed your pride with boredom
Then they lead you off to war The way we treat each other
Really makes me feel ill
'Cause if you're gonna fight
Then you're just dying to get killed I wanna destroy you
I wanna destroy you A box upon the media
And everything you read
They tell you your opinions
And they're very good indeed I wanna destroy you When I have destroyed you
And I'm pickin' at your bones
And you won't have a single item
Left to call your own I wanna destroy you
I wanna destroy you
I wanna destroy you
I wanna destroy you
I wanna destroy you
