

# Proud of You

## 10 Years

Shadows set the mood  
Innocence left the room  
And all I know to do  
Is shed a tear for you, oh, oh, oh, oh Please, dont be ashamed  
Whether you win or lose  
I just want you to know  
That Im proud of you Dont be afraid  
When your fight is through  
I just need you to know  
That Im here with you, with you I cant watch you choose  
To pour salt in your wounds  
Now all I know to do  
Is say a prayer for you, oh, oh, oh, oh Please, dont be ashamed  
Whether you win or lose  
I just want you to know  
That Im proud of you Dont be afraid  
When your fight is through  
I just need you to know  
That Im here with you, oh
