

Morning Light

Royal Crown Revue

Morning light shine through my window
Morning light tell me to leave you
Morning light and I wonder just
How can I wander alone in this world without you All day I work with pick in hand
Until the sun go down
All day I think of you, me girl
And my poor heart spins 'round Morning light shine through my window
Morning light tell me to leave you
Morning light and I wonder just
How can I wander alone in this world without you Sun go up, the moon come down
The whole world spinnin' 'round
Before that stops and Heaven drops
My love will keeps us bound Morning light shine through my window
Morning light tell me to leave you
Morning light and I wonder just
How can I wander alone in this world without you Rooster crows at break of day
And when the sun go down
Were I that rooster lovin' you
I'd make a sweeter sound Morning light shine through my window
Morning light tell me to leave you
Morning light and I wonder just
How can I wander alone in this world without you Sun go up, the moon come down
The whole world spinnin' 'round
Before that stops and Heaven drops
My love will keeps us bound Morning light shine through my window
Morning light tell me to leave you
Morning light and I wonder just
How can I wander alone in this world without you Morning light
Morning light
Morning light
Morning light Morning light
Morning light
Morning light
Morning light
