

Black Rain (studio Version)

Freddy Mullins

The Clouds came in with laughing oh with laughing
It seems you've been all alone and thinking
The diamond black drops that you saw and caught
The black rain on your window pane Oh black rain
Always falls the same
Oh black rain
Always falls the same on me We think the same thing oh its more take than offering
But still you seem to be everywhere but free
You're caught up in a name with nothing to explain
But black rain on your face again
Oh black rain
Always falls the same
Oh black rain
Always falls the same on me
