

How Can I Forget

MKTO

You wore that white sundress

Smoked a clove cigarette

Danced barefoot and your hair was a mess You drove a Jeep Cherokee but no money for gas

Coulda looked at you all day long, all day long You tried to downplay your beauty but you couldn't fool me

You tried to play like you're tough but you grew up by the beach Said you hated the word but somehow you like
me

Coulda looked at you all night long, all night long Coulda looked at you all night long, all night long How can I
forget you

In the morning

How can I forget you, I was dreamin'

You were standin' there wearin' my t-shirt

Wishin' that you could still be here

How can I forget

I can't

I can't (I can't)

How can I forget

I can't

I can't Ran ten blocks in the rain girl

Train ain't running this late girl

You're the only one to do me like that

Why you biting on your lip like that (don't stop)

Fallin through that door way

Stopping this ain't no way

Okay, smoke break

I shut my eyes for a second you were gone, gone, gone

Now I'm thinking bout you all night long, all night long

How can I forget you

In the morning

How can I forget you, I was dreamin'

You were standin' there wearin' my t-shirt

Wishin' that you could still be here

How can I forget I can't

I can't

How can I forget

I can't

I can't You wore that white sundress

Smoked a clove cigarette

Danced barefoot and your hair was a mess Let you slip through my fingers but you're stuck in my head

And I'll be thinkin' 'bout ya for so long

For so longHow can I forget you
In the morning
How can I forget you, I was dreamin'
You were standin' there wearin' my t-shirt
Wishin' that you could still be here
How can I forgetI can't
I can't
How can I forget
I can't
I was dreamin'
You were standin' there wearin' my t-shirt
Wishin' that you could still be hereHow can I forgetI can't
I can't
How can I forget
I can't
I can'tHow can I forget
