

# Thunder In the Night Forever! (We Ride to Fight)

## Planes Mistaken for Stars

Advisory - the following lyrics contain explicit language:

burn the billboards, they've broke our embrace  
and gouged our eyes  
dead are the days of misspent wishes and spoonfed lies  
brother don't slip, and sister don't forget  
our truths have been raped and blackened at the ends  
we'll wash in blood, and bathe in vice  
we ride to fight
