Temptingly Yours

Soulwax

Maybe I'm wrong
but I could've sworn
I saw your eye twitch.
Didn't object,
what did you expect?
Now I have to tell you:
Don't come back to tempt me.
I'm happy in my misery.
You asked what I did,
I did what you asked,
but I couldn't get it
right from the start
you went for my heart,
now i have to ask you
Don't come back to tempt me.
I'm happy in my misery.
It was your idea in the first place
and I know it takes two but on certain days
I try not to think of how it would be if....
I don't pretend
to know where it ends
wish I could care less.
One time I cried more
in 1994
but that doesn't count I guess.
