

# Moonlight Over Paris

Peter Mayer

You say you've been overseas, and i say overwhelmed  
You say its just a holiday, my alley say she lived  
I say i've been working late, working overtime  
Haven't seen a sun in 6 to 9

--Chorus--

Does the moonlight shine on Paris, after the sun goes down?  
If the London Bridge is Falling, Can anybody hear a sound?  
If you follow the sunset, Will it ever end?  
Does the moonlight shine on Paris...

Oh ! and how can you just walk away, is something that i say  
I see only black and white, you see clear and red  
You believe in the miracles, wondering into wines  
I believe when it makes the New Your Times

--Repeat Chorus--

---
