# 2024

## The March Violets

Fall into that black hole, honey
Looking up from your eyes
Everything that you ever wanted
You fight, but why?
Folded up just like a piece of paper
Take your sweet little time
You can write it on the sidewalk, yeah
But you'll find it's not right
And now you're walking through the door
Just like 2024
Said I got to believe
Someday you'll see
Someday you'll see that there's something more
Yeah, there's something more
That's why you're so bored
Oh, there's something more
And now he's standing at your front door
Nowhere better to be
But I can see you tie your own shoelaces
You bleed
Fall in love just like a newborn baby
Blond hair and blue eyes
Taking pictures with your Polaroid camera
You're fine, it's all right
And now you're walking through the door
Just like 2024
Said I got to believe
Someday you'll see
Someday you'll see that there's something more
Yeah, there's something more
That's why you're so bored
Aw, there's something more
And now you're walking through the door
Just like 2024
Said I gotta believe
Someday you'll see
Someday you'll see that there's something more
Yeah, there's something more
That's why you're so bored

Aw, there's something more
