

# Call Up

## Maduros

No one ever lived a thousand years  
Not like things we do or say  
Some of those who really changed this world  
We would welcome back today  
They could really light the way  
So call up Otis  
Call up Marvin  
Call for Buddy  
Bring them on  
Call for Ludwig  
And for Johann  
We need Lennon  
We mean John  
Words live longer than a thousand years  
Listen hard to what they say  
Single voices that would change this world  
We would welcome back today  
They would really light the way  
So call up Jimi  
Let's have Stevie  
Look for Miles  
To take the floor  
Call for Billie  
Yell for Ella  
Call up Elvis  
We'll need more  
So call up Einstein  
Bring back Darwin  
Call for Newton  
And Luther King  
We need Gandhi  
Call Da Vinci  
Call for Jesus  
And ask Him in  
If we live another thousand years  
Who could help along the way?  
Some of those who came and changed this world  
We would welcome back today  
They would really light the way

So call up Garbo  
Let's have Mansfield  
Maybe Monroe  
No, she's for sure  
Call Sinatra  
Come on Crosby  
Is that Bogie  
At the door?  
Bring on Bergman  
How about Dietrich?  
Let's have James Dean  
Leave the car  
Call Picasso  
We need Monet  
Let's have Rembrandt  
And Renoir  
Call up Groucho  
Come on Gable  
Bring on Hitchcock  
And let's get wilde  
Come on Gershwin  
Let's call Porter  
Maybe Duke  
Could show some style  
Call up Shakespeare  
Bring on Byron  
We need Shelley  
And maybe Keats  
Come on Wordsworth  
Bring on Browning  
Robert Burns
