

Fifteen (BEN BADA BOOM EDIT)

Goldroom

It's been a long time
Wondering why
The summer smells like sin and wonder
Feels like it's
Gone inside of
A place and time I dream about when
I get to walkin'
Oh let us always
The summer sun I can't go back to
The touch of your skin
On my skin
Look away these times are backwards
I'll let you know we'll look back up in time But we were only fifteen
Fifteen we're floating through the slipstream
You're with me
We were only fifteen
Fifteen just floating through the slipstream It's been a long time
Wondering why
The summer smells like sin and wonder
Feels like it's
Gone inside of
A place and time I dream about when
I get to walkin'
Oh let us always
The summer sun I can't go back to
The touch of your skin
On my skin
Look away these times are backwards
I'll let you know we'll look back up in time But we were only fifteen
Fifteen we're floating through the slipstream
You're with me
We were only fifteen
Fifteen just floating through the slipstream
