

# So In Love (Acoustic)

## The Icarus Account

Your hand it fits  
Perfect in mine  
The world has stopped  
And so has time Cause we're so in love  
We're so in love  
We're so in love Ooooh... City lights cloudy skies  
Slow dance in the rain  
Won't forget how it sounds  
When you say my name So we save the best  
For last tonight  
A simple hug and kiss goodnight  
As all of the angels sing our song  
Heaven and earth join to sing along And we're so in love  
And we're so in love  
And we're so in love I'm turning the tables  
I'm changing the time  
I'll do anything just to keep you mine  
You're one of the angels yeah it's true  
I'm standing in heaven when I'm with you We're so in love  
We're so in love  
We're so in love I love the way that you say my name  
I love the way that you hold my hand Like we're so in love  
Cause we're so in love  
Yeah we're so in love
